

Crossroads Open Cells feature interconnected baffles that form shapes from traditional cubes to curved, bent and 3D custom designs.

MAIN ASSEMBLY ▼

PHYSICAL DATA

- Material – (PET) polyester felt
- Felt thickness – 9MM, 3/8" nominal; 12MM, 1/2" nominal
- Fire Performance – ASTM E84 Class A, CAN/ULC S102.2
- Acoustics – NRC depends on baffle size and spacing. Baffles spaced closely together can achieve higher NRC.
- Weight – .20 - .33 lbs./ln.ft.
- Warranty – One Year Limited
- Variation – With all felt products color and texture may vary from order to order; adequate attic stock should be ordered.
- Seismic areas – Crossroads Open Cells have been engineered for use in all seismic areas. Check with local code officials or a licensed engineer for additional requirements.
- Applications
 - ▶ Crossroads Open Cells are not approved for exterior application
 - ▶ Do not install near sources of heat greater than 158° F

SUSTAINABILITY

LEED CONTRIBUTION –

- BD+C v4 (MR: Product Disclosure, Recycled Content).
- Schools EQ: Acoustic Performance.
- Up to 60% post-consumer PET felt.
- No VOCs.
- EPD & GREENGUARD Gold certified.

LEED® is a registered trademark of the U.S. Green Building Council

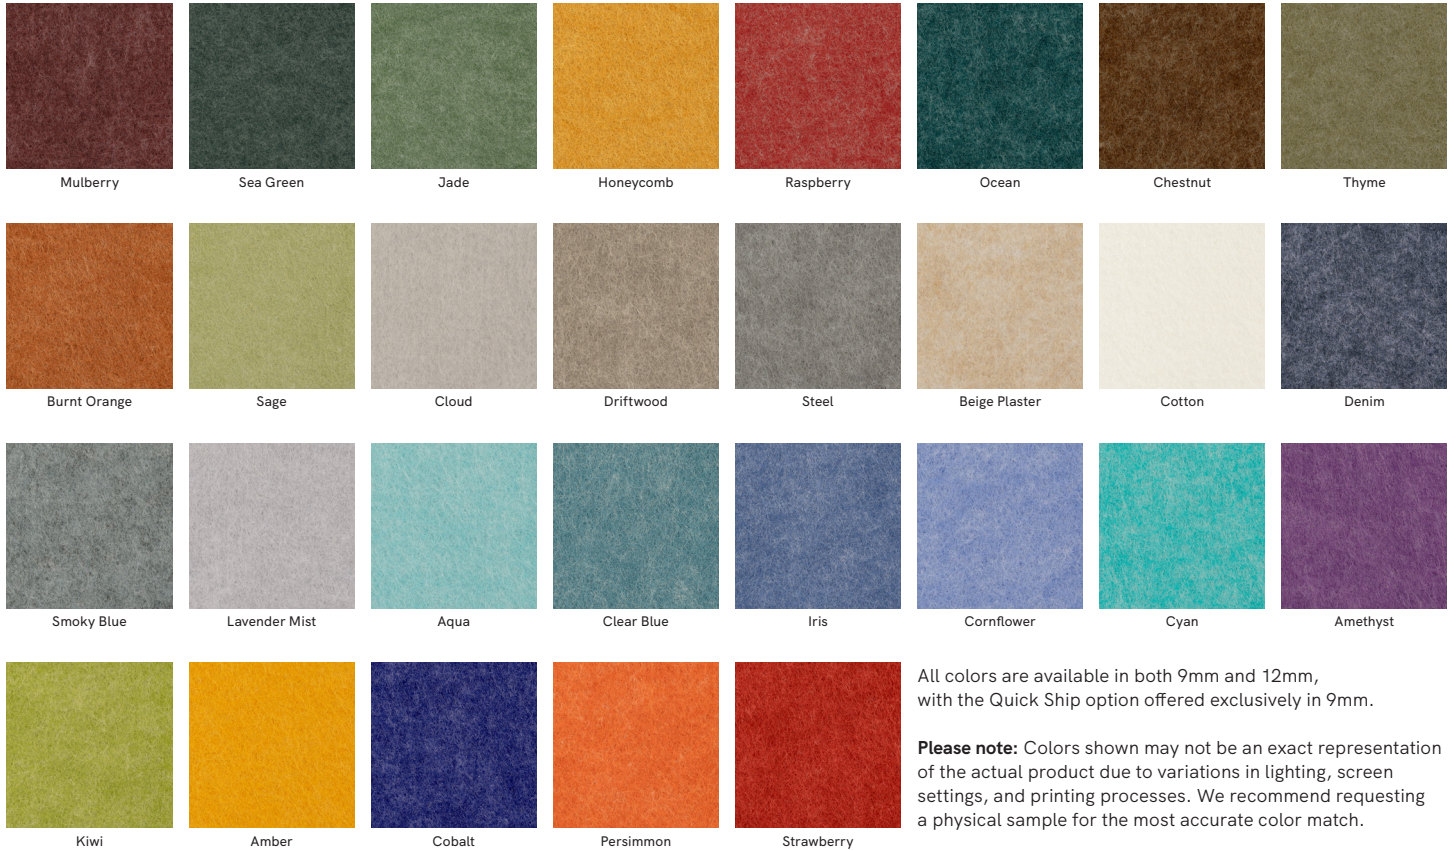

FEATURES

- Create soft, warm and tranquil spaces.
- 37 standard colors to choose from; 8 'Quick Ship.'
- Custom sizes & shapes – At Maxxit custom is what we do best. We will make any shape or size you can design.
- Standard sizes – in addition to custom we also have standard products available made to order in 1/4" increments.
 - ▶ Lengths – up to 8'
 - ▶ Depths – up to 24"
- Lightweight, pre-assembled & easy to install.
- Flexible and economical cable hung attachment.
- Easy plenum access – attachment hardware allows baffles to unhook for easy plenum access and adjustment during installation.
- Baffles can be arranged in various ways to accommodate design and architectural elements.
